### Calculating the “Grow-One-Step” Challenge

1. From the left-hand column find the appropriate figure representing the approximate annual income for your family.
2. Look to the right until you find the amount closest to your weekly giving level. (Annual commitment divided by 52.) Enter that number \$ \_\_\_\_\_
3. Go to the top of the chart to determine what percentage that is of your income.
4. Move one (or more) columns to the left to consider how you might grow, and then look back down to your original annual giving line to see what your new weekly commitment would be.  
Enter that number \$ \_\_\_\_\_
5. Subtract #2 from #4...\$ \_\_\_\_\_. This is the amount of your weekly increase in financial commitment while growing in discipleship.
